

REDUCING RISK OF ILLICIT SMALL ARMS AND LIGHT WEAPONS, AMMUNITION AND EXPLOSIVES PROLIFERATION ACROSS BORDER OF KYRGYZ REPUBLIC

OSCE PROJECT NO: 5300731

GEOGRAPHICAL AREA: Central Asia

PROJECT TIMELINE: 01-Jan-2023 - 31-Dec-2026

PROJECT BENEFICIARIES: Border Service of the State Committee for National Security of the Kyrgyz Republic

PROJECT BUDGET: EUR 5,756,555

GENDER MARKER:

Score 1: Project is gender mainstreamed in its participation aspects.

CONTRIBUTIONS TO UN SUSTAINABLE DEVELOPMENT GOALS:

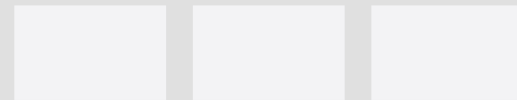

PROJECT BACKGROUND:

The project aims to reduce the risk of illicit small arms and light weapons (SALW), conventional ammunition (CA) and explosive proliferation across the Kyrgyz Republic border. This will be achieved by enhancing the capabilities of the Border Service of the State Committee for National Security of the Kyrgyz Republic (Border Service) in the following fields of disposal of explosive ordnance, physical security and stockpile management of SALW, CA and engineering equipment, canine (K9) service in support of detection of illicit SALW, CA and explosives and an integrated approach to combatting illicit trafficking of SALW, CA and explosives.

The foreseen activities are devised comprehensively in line with the capability enabling line model, i.e. strengthening several constitute elements of the Border Service capability in combatting illicit trafficking of SALW, ammunition and explosives such as regulations, organizational framework, education/training, infrastructure and material (equipping), personnel framework and information management in line with international standards and OSCE best practices on SALW.

The project is part of the OSCE wider response to the implications of Afghanistan for the OSCE region launched in November 2021. The situation in Afghanistan – due to excessive and destabilizing accumulation and uncontrolled spread of SALW and CA – present an increased risk of illicit trafficking to the Central Asia region.

LOGIC OF PROJECT'S IMPLEMENTATION AND ITS CONTRIBUTION TO THE OSCE

ACTIVITIES

RESULTS

OBJECTIVE

IMPACTS

GOAL

1.1 - 1.5 Supporting strategic approach to EOD service development by enhancing operational and material capabilities, supporting co-ordination capabilities and interoperability, enhancing training capabilities and supporting medical service.

1 The use of explosive ordnance disposal (EOD) capability of the Border Service is strengthened

2.1 - 2.4 Supporting strategic approach to PSSM of SALW, CA and engineering equipment by updating regulations, upgrading infrastructure, improving information management and developing training capabilities.

2 Upgraded physical security and stockpile management of SALW, CA and engineering equipment of the Border Service

3.1 - 3.5 Supporting strategic approach to K9 service development by updating regulations, enhancing infrastructure and technical equipment, improving training capabilities, developing information management and co-ordination capabilities and enhancing operational capacities.

3 The use of K9 service capability in detection of illicit SALW, CA and explosives of the Border Service is enhanced

4.1 - 4.4 Supporting strategic approach to the development of combating illicit trafficking of SALW, CA and explosives capability by enhancing training capabilities, supporting interoperability and enhancing technical capabilities of border crossing points in southern provinces of Kyrgyzstan.

4 Integrated approach to combatting illicit trafficking of SALW, CA and explosives of the Border Service is enhanced

To reduce risk of illicit SALW, ammunition and explosives proliferation across Kyrgyzstan's border
