PROJECT STATUS

#### Project :

Addressing security and safety risks of illegal possession, misuse and trafficking of SALW and their ammunition in Bosnia and Herzegovina XB-SAR-PM-SALW BiH-20

Project Title:

### **General Information**

Project No.	2200469		
Owner UB Fund:	220 - Mission to Bosnia and Herzegovina		
Accounting Fund:	705 - Funds to Support OSCE Action for Peace, Democracy and Stability in BiH	Project Man	ager
Programme:	21350 - Security Co-operation	Name:	SARBAN, Mr. ANDREI
Programme	B.1 Politico-Military Dimension	Title:	PROJECT MANAGER.220.P.030393
Dimension			
Organisation:	22031700 - Security Co-operation	e-mail:	andrei.sarban@osce.org
Geographical Area	South-Eastern Europe	Telephone:	+387 33 952 100
Project Start Date:	01-Nov-2020		
Project End Date:	31-Dec-2025		

### Project Overview

The project aims to assist BiH in decreasing security and safety risks related to illegal possession, misuse and trafficking of SALW, ammunition and explosives thus also contributing to regional security and stability. To meet this objective, support will be provided to improve the relevant regulatory framework and enhance relevant operational capacities and inter-agency co-operation involving the BiH SALW Control Co-ordination Board and beneficiary law enforcement agencies (LEA). The Project has five priority areas: improving PSSM of the LEAs; SALW and ammo storage infrastructure; supporting the SALW CCB in increasing institutional awareness on SALW control and developing methodology and M&E tools for institution-led awareness raising and outreach; building LEAs; K9 capabilities for detecting SALW, ammo and explosives; supporting development of integrated SALW & ammo inter-institutional case database and tracking system and legislation on SALW deactivation.

#### Project Objective(s):

To support BiH in mitigating security and safety risks related to illegal possession, misuse and trafficking of SALW and their ammunition.

#### Project Result(s):

Result 1 | SALW and ammunition storage capacity of law enforcement agencies is improved

Result 2 | Institutional awareness on SALW control is increased and the structure, methodology and M&E tools for institution-led public awareness and outreach are developed

Result 3 | Law enforcement K9 capabilities for detecting SALW, ammunition and explosives are strengthened

Result 4 | An integrated SALW and ammunition inter-institutional case database and tracking system is developed

Result 5 | Legislative and regulatory framework on SALW deactivation is developed and operationalised

#### Summary of Project Strategy:

The Western Balkans are recognized as one of the priority regions in terms of arms control, non-proliferation and fight against arms trafficking/smuggling, with evidence suggesting that some SALW and/or ammunition used by terrorists and other criminal groups in Europe originates from this region. The rate of incidents in which SALW were (mis)used remained constant throughout the analysed period 2012-2016; misuse was prevalently related to crime. Although the use of legally owned SALW in crime is noteworthy, the overwhelming majority of criminal offenses involving firearms (i.e. 95.7 per cent) involved use of illegally owned SALW. Accordingly, the significant number of firearms/SALW and their ammunition in illegal possession of citizens, as well as their unlawful use, widespread availability, and ease of access to them (including as a consequence of trafficking), continue to pose a pronounced risk to the safety of the general population, specific target groups, as well as law enforcement in BiH and the wider region. In response to an official assistance request from the BiH Ministry of Security and the SALW CCB, the OSCE conducted thorough consultations and research/assessment of the identified problems and identified the following foremost gaps. The Project reinforces existing host country capacities and supports the meeting of its short- to medium-term priority needs in combating SALW, ammunition and explosives proliferation and misuse. All Project activities will improve the capacities of the beneficiary LEAs to implement the BiH SALW Control Strategy in view of their respective roles and competencies. The Project will provide technical assistance to the development of key strategic, tactical and operational responses to illegal possession, misuse, and trafficking of SALW, ammunition and explosives. Emphasis will be placed on ensuring local ownership, increased knowledge and buy-in, and raising awareness of best practises and their practical application and benefit in BiH.Beneficiary LEAs will be supported in ensuring that they operate/manage SALW storage sites in line with international standards and host country interests. Support to development of SOPs as well as of the methodology and M&E tools for institution-led public awareness and outreach will be conducted in a manner that ensures sustainability beyond the Project, s duration. The legal framework governing the K9 work as well as the infrastructure used by the police K9 units are already in place, and so the Project will focus on supporting priority upgrades. The Project will also advocate with the beneficiary LEAs to optimize rather than overhaul the CMS architecture and procedures in a manner that ensures their full ownership and ability to populate and manage the system beyond the Project; s duration. The Project will support harmonization of legislation and development of SOPs on SALW deactivation. In addition, it will provide for establishment of sustainable SALW deactivation facilities and required personnel and organizational structures. Finally, the Project intends to support and promote institutional dialogue regarding the importance of prevention, control, investigation and suppression of proliferation and unlawful possession of SALW and its ammunition. The noted Project

support will be provided through targeted and tailor-made workshops; working group meetings; conferences and training courses; development of regulatory materials, knowledge products and training curricula; procurement of technology and equipment; and upgrading of the security and safety infrastructure. The Project will moreover aim to integrate its trainings into existing training curricula and programmes with the beneficiary LEAs training institutions. The BiH SALW CCB and LEAs are the primary Project beneficiaries, whereas prosecutors; offices, courts and penitentiary services are secondary Project beneficiaries.

### Summary of Financial Requirements (EUR)

Project Budget:	4,666,253		
		Staff Costs	781,458
